

SECURED FIRE ALARM COVER

Cato's quality protective alarm covers, manufactured in the U.S., provides a dent and rust proof alternative to metal. The protective alarm cover with the security cover is vandal resistant and contains a side slot to hold the break bar in place when not in use. It arrives fully assembled and is quick to install.

SPECIFICATIONS:

Body and Cover Material: Injection molded of high-density polypropylene, available in red only. Pull handle at the top is designed to ADA specifications.

Surface mount cover includes cut-outs top and bottom with black nylon snap in dome plug

Acrylic Material: .080 Acrylic front panel, grid scored for improved emergency access with break tool. Available in clear only.

Break Tool: Galvanized steel break bar and clear nylon coated stainless steel cable

Decals: UV resistant "BREAK PANEL" and "FIRE" decals included

Hardware: Mounting hardware and anchors are included

Sizes: Refer to table, listing models and dimensions. Available for recessed or surface mounted alarms.

Options: Gasket
